

CWU Victoria P&T Branch Election Ballot opens 1st June 2023

Our plan to deliver for you!

What we stand for:

- **a democratic organising union**
- **a union that educates and empowers members**
- **a union that builds activism in the workplace**
- **a union that leaves no one behind.**

Stronger union delegate & HSR structures:

We will form union delegate & HSR committees that meet regularly and set the direction of the branch. No more secrecy! Strong structures = Strong unions
We stand for organised, safe workplaces.

Building a bigger union

We have a plan 'Campaign 5000' to build the Vic branch back to 5000 members in the 4 year term to mid 2027. The current officials are just managing decline without any plan to grow.

Union density = Member Strength

CWU Victoria proudly independent

For nearly 16 years the CWU Vic branch was a fiercely independent member focused branch. The current officials are too close to the Divisional Office. The union belongs to its members, not union officials.

Membership Participation

Members have a right to attend every meeting of the union & to be kept informed about their jobs. We will open every meeting to members. No one will be excluded. We won't do deals behind your back. No MoU's, No Secret Deals.

We will fight for real payraises

The last pay increase made very little difference to Australia Post workers after years of sub CPI wage increases. Australia Post workers kept working during the Pandemic but you're still behind on pay.

We deserve better.
